03/01/2021

The CPD's [Aggies Elevated program](#) was recently featured by Lumina Foundation's most recent magazine.

The Indianapolis, Indiana-based organization is dedicated to bring post-high learning opportunities to everyone, especially those who normally encounter barriers to college, certifications and industry credentials.

It is no surprise the magazine focused on Aggies Elevated, which has a remarkable record of not only educating people with intellectual disabilities, but helping them secure competitive jobs.

Even in the age of COVID, AE graduates are enjoying a 90 percent employment rate.

You can read the [Lumina in-depth article](#) on their website. [Watch additional interviews with staff and participants.](#)
