

Disability Awareness & Intervention ECHO

Disability Awareness & Intervention ECHO

<p>The Disability Awareness and Intervention ECHO is a statewide professional development network designed to strengthen early identification and support for young children with developmental disabilities. Many Utah children with developmental delays—estimated between 75,000 and 100,000 under age 8—are not identified until elementary school. These delays in recognition mean missed opportunities for early intervention, when support is most effective.</p>	<div data-bbox="558 661 805 819" data-label="Image"> </div> <p data-bbox="509 829 857 882">DISABILITY AWARENESS & INTERVENTION ECHO</p> <p data-bbox="451 1010 594 1039">Contact Us</p> <p data-bbox="451 1073 691 1163"> <i><i class="fa-solid fa-phone"></i></i> (435) 890-5768 <i><i class="fa-solid fa-envelope"></i></i> disabilityECHO@usu.edu </p>
